## Torsion Spring Design

**extension & torsion springs (chapter 10) - mercer university** - stress in torsion springs the coil of a torsion spring experiences bending stress (despite the name of the spring). including a stress-correction factor, the stress in the coil can be represented by the stress-correction factor at inner and outer fibers has been found analytically for round wire to be  $k_i$  is always larger, giving the highest stress at the inner fiber.
